

Weave

To create an open light fabric, we left empty spaces in the heddle at intervals and then worked 2:2 leno in the weft. This creates little squares running down the length of the scarf, giving the scarf an overall lacy look. For additional texture, we combined three sizes of mercerized cotton in the warp: 3/2, 5/2 and 10/2. The leno, worked by hand, proceeds quicker than you might suspect. We feel the result is completely worth the extra time. We hope you'll love leno as much as we do. Designed by Jane Patrick, woven by Ceil Lambert.

WARPING

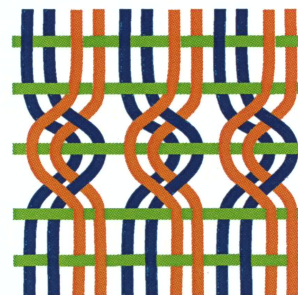

Following the warping plan below. You can use either the direct peg warping method or measure the yarn first on a warping board.

WEAVING

Use Garden 10 for weft. Begin and end the scarf with hem-stitching. Weave 18 rows of plain weave using an even beat, then work a row of 2:2 leno from selvedge to selvedge. Repeat for the entire length of the scarf. We worked our leno on a closed shed. See illustration. For more information on leno, please see Jane Patrick's *The Weaver's Idea Book*.

FINISHING

Remove cloth from loom. Add desired fringe finish. We used a twisted fringe here. Hand wash scarf in very warm soapy water then lay flat to dry. Steam press on high heat.
